

**Quick Overview** – This was the first time **Let's Go Birding** planned a weekend around Half Moon Bay, California. Fall is the perfect time to bird the many hot spots found along this coastal town and I was inspired to plan the tour. Others were also inspired and the trip proved very popular. Reserving enough rooms to accommodate the folks turned out to be the biggest challenge. Fortunately, the Coastside Inn took care of me, so we were set for Saturday night. We started our birding south of San Francisco at Milagra Ridge. It was a good place to stretch our legs. Damp and foggy, the birds we did manage to see included California Thrasher, both towhees, Dark-eyed Juncos, Hermit Thrush and a Bewick's Wren. From there we headed to the north end of Devil's Slide. This notoriously dangerous section of coastal Highway 1 was recently closed to cars & converted into a trail only open to hikers, runners, bicyclists and outdoor enthusiasts. Our driver Tom dropped us off so we could walk the 1.3 miles down to meet him at the south end. Although the fog was still present, we could see habitat around us plus the ocean waves below. Our first two birds were a Northern Flicker and a Hairy Woodpecker. Along the trail we had a wonderful experience with a Rock Wren. The bird had little concern for all of us enjoying his antics. A female American Kestrel also provided great views, and we all talked about how to ID the three different cormorants found on our coast. It was a great way to spend our morning and we all want to go back. From here we drove to Fitzgerald Marine Preserve where we ate lunch and then put our attention on the songbirds found along the trails. We found a flock of Pine Siskins which was a new bird for some. As we walked the Coastal Trail we ran into a mixed flock which included a Townsend's Warbler, a Red-breasted Nuthatch and several Yellow-rumped Warblers. While we never got to see them, we could hear Pygmy Nuthatch above. After our walk along the bluff we headed to the hotel where we checked-in, unloaded our gear and took a break before heading out to enjoy the raptors & sunset out at Wavecrest.

### Birds Observed –

Canada Goose	Brown Pelican DS
Mallard BB	Great Blue Heron W
American Wigeon	Great Egret PM
Northern Shoveler	Northern Harrier W
Ruddy Duck PH	White-tail Kite W
Surf Scoter DS	Red Shouldered Hawk
California Quail R	Red-tail Hawk
Common Loon	Turkey Vulture DS
Red-throated Loon	Cooper's Hawk W
Pacific Loon	American Coot
Pied-billed Grebe	Black Oystercatcher PH
Western Grebe PH	Black Turnstone SC
Eared Grebe PH	Whimbrel PH
Black Vented Shearwater SC	Killdeer PP
Double-crested Cormorant	Black-bellied Plover PH
Brandt Cormorant SC	Western Gull
Pelagic Cormorant DS	Heerman's Gull
	Elegant Tern
	Rock Pigeon
	Band Tailed Pigeon
	Mourning Dove
	Eurasian Collared Dove
	Anna's Hummingbird
	Belted Kingfisher PH
	Northern Flicker DS
	Hairy Woodpecker DS
	American Kestrel DS
	Black Phoebe
	Say's Phoebe
	Western Scrub-Jay
	American Crow
	Common Raven
	Chestnut Backed Chickadee
	Bushtit
	Red Breasted Nuthatch
	Rock Wren
	Bewick's Wren
	Western Bluebird (H)
	European Starling
	Yellow Rumped Warbler
	Townsend's Warbler
	Common Yellowthroat
	Spotted Towhee
	California Towhee
	Song Sparrow
	White-crowned Sparrow
	Golden-crowned Sparrow
	Fox Sparrow
	Lincoln's Sparrow
	Savannah Sparrow
	Dark-eyed Junco
	Red-winged Blackbird
	Tri-colored Blackbird
	Brewer's Blackbird
	Brown-headed Cowbird
	Western Meadowlark
	House Finch
	Pine Siskin
	American Goldfinch
	House Sparrow
	DS – Devil's Slide
	H – Princeton Harbor
	W – Wavecrest
	SC – Santa Cruz
	(H) = heard only
	(r) = En route

With the sunset only 90 minutes away, as soon as we got off the bus we started looking for raptors. We quickly saw our first of many White tail Kites. The other raptors also found here included Red-Shouldered Hawk, Red-tail Hawk, Northern Harrier and a Cooper's Hawk. It was a beautiful evening and as we walked to the cliff edge we found ourselves in the company of Western Meadowlarks, Savannah Sparrow, a Great Blue Heron and a Say's Phoebe. Just after the sun dropped into the ocean, we observed a Barn Owl coming out to hunt. As he flew out of sight we called it a day and headed for dinner. *Continue to page 3...*

We can always count on our driver Tom from Corinthian Ground Transportation to be ready for us when we are ready to move on to our next location!

Myers / The group birding into the sunset at Half Moon Bay's Wavcrest – Joe DiAndrea / One of many Brown Pelican's enjoyed over the weekend – Joe DiAndrea / And our incredibly beautiful sunset over the Pacific Ocean – Joe DiAndrea

October is pumpkin season in Half Moon Bay so we wanted to avoid the crowds. First thing Sunday morning we went north to bird the marshland around Princeton Harbor. It was a rather warm, overcast fall morning. The low clouds made everything rather quiet except for the song of the White & Golden Crowned Sparrows. We also spent time trying to get good looks at a shy Lincoln Sparrow, but the Fox Sparrow was seen by all in addition to the many Song Sparrows. In the harbor we found two species of grebes, and a Belted Kingfisher. A Black-bellied Plover, Whimbrel and Black Oystercatchers were some of our only shorebirds for the weekend. A recent typhoon across the ocean was sending large waves crashing along our coast & the rough seas were leaving little exposed shoreline for shorebirds to forage. Well, at least that's my story and I'm sticking to it! After our morning at the harbor we checked out of our hotel and headed south. Lunch time had us at Pigeon Point where the wind was blowing strong. It played havoc on our overcast day and made it difficult for the sunglass photo shoot happening along the cliff's edge. We did however add Killdeer, Tri-colored Blackbirds and Western Bluebirds to our day. As we continued south we pulled out at a few more locations with our final stop along Santa Cruz's West Cliff Drive. The temperatures here were in the 90's and the ocean was filled with surfers. We also observed Black-vented Shearwaters off shore numbering in the hundreds. A few Black Turnstone's, below on the rocks, were a nice sight and a great way to end the trip. As always, I thank all of you that put **Let's Go Birding** trips onto your schedule. I look forward to designing more birding adventures and I hope you can continue to come out and play.
